July 20 <sup>th</sup> to August 1 <sup>st</sup> , 2011 and August 10 <sup>th</sup> 2011	621 completed interviews	10 minutes	+/- 4.2%

\*Data are weighted for age and gender

Hi. This is \_\_\_\_\_ calling on behalf of the Utah Foundation, a non-partisan public policy research group. We're talking with Utah residents today about the quality of life in their community.

Are you at least 18 years old?

1. Yes 100% 2. No 0%

(If no – ask to speak with someone who is at least 18 years old)

I'd like to take about 10 minutes to get your impressions and opinions about this topic, so we can adequately represent your community.

And let me assure you that your responses will be completely anonymous and confidential, so please be candid. That's how you can best help us.

Ok. Let's begin.

#### **Perceptions of Quality of Life Conditions**

I'll be asking questions about the area where you live. For this survey, please think generally about the area within about a half hour drive of where you live.

[Rotate order for items #1-#20. Repeat "For your area, how would you rate..." and "Use any number from 1 to 5 where 1 means "Poor" and 5 means "Excellent" for first 2 randomly presented items in the list, then with the 8<sup>th</sup> randomly presented item. After the 7<sup>th</sup> randomly presented item, insert the reminder: "Again, thinking of the area within about a half hour drive of where you live." Have "Don't Know" as a possible response category but don't ask]

## Importance of Quality of Life Conditions

Ok. Thanks for your feedback so far. Now let's shift gears just a little. In this section, I'm going to ask about the same aspects of your area as before, but this time I'd like you to tell me how IMPORTANT you think each is for the quality of life of your area. And remember, I'm referring to the area within about a half hour drive of where you live.
